Innovative IT professional and military veteran with a strong foundation in full-stack development, automation, and systems analysis. Proven ability to streamline workflows, enhance system reliability, and deliver tailored software solutions. Eager to leverage technical skills to contribute to a forward-thinking organization.

DEVELOPMENT PROJECTS

Netflix Clone: GitHub Repository **|** Live Demo
- Built a movie browsing app using React, JavaScript, Firebase, and Stripe for user authentication and subscription payments.
- Integrated TMDb API to dynamically display categorized movie lists.

CRUD Zoology: GitHub Repository **|** Live Demo
- Developed a CRUD application using C#, ASP.NET, SQL, and React.
- Enabled users to manage animal data in a database with real-time updates.

Ticketing System: GitHub Repository **|** Live Demo
- Created a task assignment app with Node.js, Express.js, MongoDB, React, JavaScript, and Redux.
- Secured user roles and permissions to streamline organizational workflows.

PROFESSIONAL EXPERIENCE

Systems Analyst   JUN 2024 – Present
Martin Supply, Florence, AL 35630
- Automated core business processes with Power Automate to deliver custom solutions for manual operations.
- Gathered requirements from business users and translated them into technical solutions, bridging gaps between IT and stakeholders.
- Tested, troubleshot, and optimized workflows and integrations to ensure reliability and performance.
- Enhanced documentation and change control, increasing system transparency and audit compliance.

IT Support   JUN 2023 – Present
Martin Supply, Florence, AL 35630
- Served as the primary point of contact for technical issues, providing timely and effective resolutions.
- Implemented software to manage domain assets and deploy scripts across devices.
- Contributed to the integration of multiple companies and the unification of ERP systems.

Business Representative   JUL 2021 – JUN 2023
Colonial Life/Rocket City Benefits, Huntsville, AL 35801
- Managed the full sales cycle, from prospecting to closing, and provided post-sale support to clients.

Information Technology Technician   JAN 2016 – JUL 2021
Woodruff Produce, Decatur, AL 35603
- Recovered critical business data after a system failure, implementing backup procedures to prevent future data loss.
- Provided routine software maintenance and security updates to optimize desktop and laptop performance.

Communications – Field Wireman   MAY 2012 – NOV 2015
1st Battalion 6th Marine Regiment, Camp Lejeune, NC 28542
- Programmed and maintained internal landline systems for leadership communication.
